

Perchè lavorare con ITALMATCH CHEMICALS?

Italmatch Chemicals is a leading global chemical group, specialising in Performance Additives and solutions for Water Treatment & Lubricants, Oil & Gas and Plastics, Flame Retardants and boasts a wide product range able to fulfil the requirements of the most demanding applications, including Personal Care.

The group operates through 20 manufacturing plants: nine in EMEA (Italy, Spain, Germany, UK, Poland, KSA), five in Asia Pacific (China, Japan and India), six in AMERICAS (USA, Brazil); sales/distribution subsidiaries in Brazil, Belgium, Poland, Singapore and Japan, and seven state of the art innovation centres. It employs approx. 1,000 workers and generates around ~700M€ Euros of sales.

In constant dialogue with change and with a forward-looking vision oriented towards the future, Italmatch Chemicals believes and inspires its people to listen to intuition, to develop an entrepreneurial spirit, to work towards innovation and to be focused on sustainability, all advantages for vertical integration.

Italmatch is also committed to a transition towards new processes and productions, based on sustainable principles and in line with its ESG approach. These include circular economy projects for the recovery of raw materials from everyday objects, innovative solutions to produce Elemental Phosphorus from urban waste and R&D for new generation EV batteries.

We also want to value quality and safety through an ethical and sustainable development strategy of the Company. As a result of this vision, the Group boasts Certifications to ensure excellent status of safety for all people and stakeholders involved in Italmatch Chemicals plants.
